Mr. George Beamer
Product Development Engineer
Interpace-Mica Plant
Highway 27
Mica, Washington 99023

Dear Mr. Beamer:

Re: Permitting Requirements, Clinton Pit, M/049/006, Utah County, Utah

After reviewing Interpace's permit application for the Clinton Pit, we have determined that it will be simpler to have you file a new permit application for the pit, rather than revise the existing one. The new application should be consistent with the mine and reclamation plans that we discussed in the field. Enclosed is a blank MR-1 form that should be filled out and returned. Please be sure to ask for the appropriate variances where necessary.

I have enclosed a copy of our May 6, 1987, field inspection report and a copy of Frank Jensen's revegetation recommendations for your use. If you should have any questions or need additional information, please contact me or Frank Jensen.

Sincerely,

Frank J. Filas
Reclamation Engineer
